

There have always been choices when it comes to choosing a 4K program for your child. Elm Grove Preschool is a highly recommended program as attested to by past clientele and our standing in the community.

For almost 50 years, Elm Grove Preschool has offered an exceptional 4K program. First and foremost, we are an outstanding academic early childhood program serving Elm Grove, Brookfield, and the surrounding communities. Elm Grove Preschool is a cozy, comfortable one-stop shop for your four- or five-year-old's prekindergarten needs.

Our 4K is most fortunate to be led by Miss Joy and her 15+ years of experience. We take pride in having a smaller class setting, which can benefit you and your child in many ways. We offer time for breakfast, snack, and lunch, and if your child needs to rest midday, they are welcome to take a quick snooze. We have extra learning opportunities during field trips and in-house special events and guests which go along with our thematic calendar. Parents can easily check their child's progress and see what the class is doing through Class Dojo. Take a look at the following reasons our children excel in our 4K program!

★ More Time for Teaching

Fewer children in one class means more time for learning activities.

★ Special Individualized Attention

Smaller class sizes allow teachers to create personalized learning that will suit each child's personality and learning style.

★ Convenience

Our program is open from 7:30 to 5:30 Monday through Friday. Most area 4K programs including public school options are only open for a half day or less, and if you require wraparound or full-day care there is an additional fee. If you need full-day care, we've got you covered! We are also open on days when public school programs close, and we do not close for school breaks. For wraparound care, you would need to find transportation for your child. However, at Elm Grove Preschool, there is no need to worry about your 4K child bussing around in the middle of the day. It is much more convenient and less stressful for your child to stay in one place all day.

★ Socialization

Children in smaller classes find it easier to connect more closely with their peers. This ease of connection can help boost your child's confidence from an early age.

★ Structure

Small group activities are one of the most important ways to help children develop. In addition to free play and whole-class activities, we offer multiple learning stations throughout the classroom. Our mornings are structured to focus on learning new skills, and our afternoon programming, while more relaxed, is designed to expand on the readiness skills learned earlier in the day.

★ Exceptional Value

We have a high-quality program here at Elm Grove Preschool and our children leave at the end of summer ready for kindergarten! Smaller class sizes and fewer students makes it easier for teachers to focus individually on every child. Parents can be involved as much as they want and can easily talk to their child's teacher or the director with any questions or concerns!

We hope that you keep these benefits in mind when choosing a 4K program for your child. As a highly recommended center, we are very proud of what we have to offer here at Elm Grove Preschool, and would love to have your child join us! Please call 262-786-9495 to talk to Miss Jenna about enrollment.
